REGULATORY COMPLIANCE

Products ready for every export market

We prepare the regulatory documentation for your private label according to the destination country: formula identifiers, safety data sheets, VOC limits, registrations and conformity certificates.

MA Morocco & North Africa

Arabic / French labelling
Labels and safety statements adapted to local market requirements.

Import conformity control
Technical file and conformity documents for the import control of industrial products.

EAEU Russia & Eurasian Economic Union

EAC declaration / certificate
Mandatory conformity mark for Russia, Belarus, Kazakhstan and other EAEU countries.

TR CU / TR EAEU technical regulations
Testing and documentation under the applicable regulations, including chemical product safety.

EU European Union

UFI code & PCN notification
Unique formula identifier for submission to poison centres.

CLP labelling & REACH SDS
Pictograms, hazard statements and safety data sheets in EU format.

PFAS / PFOS
Formula screening against REACH restrictions on persistent substances.

VOC & Aerosol Directive
Compliance with volatile organic compound limits and Aerosol Dispensers Directive requirements (e / 3 marking).

PPWR packaging file
Conformity documentation for the EU Packaging and Packaging Waste Regulation.

US United States

TSCA inventory
Screening of formula substances against the EPA TSCA inventory.

CARB VOC limits
Compliance with California Air Resources Board VOC limits.

Proposition 65
Assessment of warnings required for California.

DOT / PHMSA classification
Hazmat transport classification of aerosols under 49 CFR.

OSHA HazCom / GHS SDS
Safety data sheets in US format.

UK United Kingdom

UK REACH & GB CLP
Safety data sheets and labelling adapted to UK regulations.

TR Türkiye

KKDİK & Turkish SDS
Compliance with the Turkish chemicals regulation and safety data sheets in Turkish.

SA Saudi Arabia & GCC

SABER registration
Product registration on the SASO conformity platform before shipment.

Shipment Certificate (SC)
Preparation of the documents needed for customs clearance.

+ Other markets

Custom regulatory study
We research the regulations of your target country and carry out the corresponding conformity and certification steps.

Requirements change over time: final compliance is confirmed with you or your importer for each project.
