

DVX PPF Slip Gel (1 L)

Positioning gel for PPF installation: slick, fast and streak-free

DVX2020

PRODUCT DESCRIPTION

DVX PPF Slip Gel is a professional solution that makes positioning and installing paint protection films (PPF) and wrap films easier. Mixed with water in a sprayer, it creates an even slip layer between the bodywork and the film adhesive: the installer can reposition the film precisely, squeegee out water without grabbing and achieve a clean, streak- and bubble-free finish. It speeds up the whole installation process.
